## **COMPUTING CGPA to PERCENTAGE**

Conversion from CGPA to Percentage of marks does not have rigor or rationale. However, an approximate and indicative equivalence between CGPA and the percentage of marks can be assessed by using the following formula:

$$\text{Percentage of Marks} = [\text{CGPA}] \times 10$$

The proposed conversion formula will be applicable to all Batches/Programs admitted in academic sessions 2017-18, 2018-19, and 2019-20.

## COMPUTING CGPA to PERCENTAGE

Regarding conversion of Cumulative Grade Point Average (CGPA) into percentage marks, the following formula is adopted for notional conversion of CGPA into percentage marks.

$$\text{Percentage of Marks} = [\text{CGPA}-0.50] \times 10$$

The proposed conversion formula will be applicable to all Batches/Programs admitted in academic session 2020-21 onwards.
