

NOTICE

Internship – SKH Algorithms Pvt Ltd

SKH Algorithms is a sister company Of Roima Intelligence, Finland.

Roima has always been believed to be consistent with its grade of delivering quality and sustaining customer satisfaction regardless of the fact that the company was witnessing rapid growth. In the process of its commitment to meet the given standard, SKH Algorithms, an emerging IT Company of Ahmedabad, Gujarat came into being which has the same philosophy of maintaining the standard with the equivalent proficiency which is at par with Roima's philosophy. It is a growing professional services company, providing a wide range of services in strategy and consulting, interactive, technology and operations, with digital capabilities across all of these services
